FLOORING

Kashian Bros Flooring, known for its personalized service and quality, is excited to announce the grand opening of a second location in Lake Forest.

The Lake Forest showroom, conveniently located just north of Market Square at 838 N. Western Ave., offers the same expertise, quality craftsmanship and friendly sales people that customers expect at Kashian Bros' Wilmette location. Kashian Bros' certified interior decorators and highly trained technicians on staff, guide customers through a project from design to installation.

Kashian Bros took over Deerpath Carpet & Rug, completely renovating its former storefront and doubling the size into a multi-level space showcasing an expan-

sive array of superior products for every room in the home.

Customers will see a broad depth of carpet samples and rugs hand-selected from mills around the world, as well as reasonably priced basement carpeting. The lower level includes an expansive variety of products, such as superior hardwood and tiles, durable vinyl flooring options and stylish countertops. The new location also showcases custom-made Amish cabinetry in contemporary designs and colors.

Kashian Bros' broad assortment of superior products and knowledgeable staff, makes re-decorating and completing home projects right in Lake Forest a breeze.

"Our new Lake Forest showroom is a full service, one-stop-shop offering personalized service that meets each customer's

unique needs. We offer everything to complete a project from a variety of flooring options, to kitchen and bathroom cabinetry, to tiles and countertops. You'll never need to take another trip to Merchandise Mart," said Doug Stein, who owns Kashian Bros with his wife Jean.

Jean brings her expertise in the industry and depth of knowledge about the community to the Lake Forest showroom.

"I look forward to working closely with customers at our new Lake Forest showroom, offering them the high quality products, and fresh new ideas for their home," Jean said.

A resident of Lake Forest, Stein seized the opportunity to open a second location in the same community where he and his wife are raising their four children.

"I love the community. I've always wanted to provide Lake Forest with a unique resource for home renovation that offers expertise and an assortment of

beautiful, high-quality products," Stein said.
